?Here's how it is: The Earth got used up, so we moved out and terraformed a whole new galaxy of Earths. Some rich and flush with the new technologies, some not so much. The Central Planets, them's formed the Alliance, waged war to bring everyone under their rule; a few idiots tried to fight it, among them myself. I'm Malcolm Reynolds, captain of Serenity. She's a transport ship; Firefly class. Got a good crew: fighters, pilot, mechanic. We even picked up a preacher for some reason, and a bona fide companion. There's a doctor, too, took his genius sister outta some Alliance camp, so they're keepin' a low profile. You understand. You got a job, we can do it, don't much care what it is.?? Opening Credits

The television series Firefly is a show that many say was never really given a chance. I would have to agree. Produced by Joss Whedon for the Fox Network, the show was originally planned to have a seven year story ark. It was canceled after airing only 11 out of 14 filmed episodes. It suffered from a variety of issues. Fox aired the episodes out of order and swapped the times that it aired in an ill-advised attempt to raise ratings. Those who found the show had trouble finding it again. Even with these issues, Firefly gathered such a strong fan following that with the release of the DVDs its popularity has continued to build over time. [Read more »](#)

Homeland is absolutely great tv drama! Imagine a decorated United States Marine who unexpectedly returns home from Iraq after being held a prisoner of war. Further imagine that the CIA has credible intelligence that a returning soldier has been converted into an Al-qaeda operative. Now imagine the clash of a war hero trying to clear his name with the CIA when the CIA suspects him of being a terrorist. Season one of Homeland will keep you on the edge of your seat. The library has five copies of the first season.
