

Introduction to Web Design - Bloomington

Program Room 2C

Thursday, May 30, 2013 | 10:00 am - 12:00 pm

In this course participants will have the opportunity to learn the basics of HTML (hypertext markup language) that lays the foundation for creating a basic website. Participants will also be shown how to create a free website and blog online without having to know any HTML or coding. Registrants for this class should have basic computer skills or have taken the computer basics class at the library.
