Why did you read it? Why did you finish it? Who would you recommend it to?:

I read about "The Age of Miracles" on NPR and it was described as a Science Fiction Novel. I'm usually not one to choose Science Fiction when given the choice, but I heard that the author did a tremendous amount of research about what might actually happen if the earth's rotation began to slow down. I think she did a great job balancing the sci-fi with the relationships and story line. I would recommend it to anyone - I think it appeals to a wide audience which is why it is getting such rave reviews.
