fantasy

Write a review of the book, including plot points, if you wish:

Fairy Bad Day is about a girl named Emma Jones, who wants nothing more than to follow in her mothers footsteps and become a dragon slayer, she thinks shes got it in the bag, until it's ripped out from under her and she becomes a fairy slayer. What makes her really mad though is that they pair her up with the guy who stole her slot for an assignment. Plus she has no idea how to slay a fairy. Then, to make it worse theres a giant fairy with no soul roaming around her school, searching for the pure one, who just happens to be her father. In the end she saves her dad, kills the fairy, and falls in love with the dragon slayer.
