**Write a review of the book, including plot points, if you wish:**

This is a very good book. It is mainly about a kid who tries to save these poor burrowing Owls that are about to get burried alive because someone is building a pancake house over where the owls live. He goes through everyday drama while trying to save the owls. I loved reading the book with my friends and telling my family what happened in the book. :) This book also has a movie about it.
