Write a review of the book, including plot points, if you wish:

This book right here inspires me to cook pancakes for little children in florida.. named joe sterling. I was changed by the names of the people in this book.. they remind of my friend justin bieber. He is so nice. But has no good people to call his friends.Except miley cyrus.But she twerks like a creep. I have hope that this thing that I am writting will help others know how great of a friend I am.
