Write a review of the book, including plot points, if you wish:
With his new take on Percy Jackson and the Olympians, Roridan chooses to take his beloved characters on a new adventure with a new great prophecy in his new series "The Heroes of Olypmus". Along with our old friends Percy and Annabeth new characters join the plot. As usual the Queen of Olympus- the Goddess Hera, has a scheme up her sleeve that will take our heroes on a very dangerous and exciting quest. We meet Jason, Leo, and Piper who must go on a quest to save the Hera who has been captured. A thrilling plot, an amazing adventure, impossible to put down. I give it two thumbs up!
