Write a review of the book, including plot points, if you wish:

I found the book to be a great ending book of the amazing LOTR trilogy. From the beginning to the end, I was interested and wanted the book to never end. The plot, setting, characters, and details were all so amazing. I definitely enjoyed reading it.

Similar authors or titles?:

I guess a similar author, someone who would write books like this, would be Christopher Paolini because with the Eragon series, you were taken to a fantasy world where the main character was going on a journey. There are elves, magic, dwarves, dragons, and a mystical, fantasy theme to the books in both series.

Would you recommend this book?:

I would definitely recommend this book because it was a really good book to read and if you like fantasy/action books, you would love this book. After you read this book, you will want to watch The Return of the King. Its a really awesome book, and if you don't read the whole series, then you are missing out.
