general

Write a review of the book, including plot points, if you wish:

When her boyfriend Jason leaves to Brain Camp it seems as though Macy has a long summer as a library assistant ahead of her... until she meets Wish Catering. Sometimes you have to take a chance and Macy took that chance. In this book Macy decides to quit her boring desk job where she is treated like poop to go into a new job at Wish Catering, while she is there she meets a wide variety of characters in the chaotic staff. I loved Macy. She was independent when it mattered most and she didn't let anyone get in the way of her future she wanted.

Similar authors or titles?:

This Lullaby by: Sarah Dessen Just Listen by: Sarah Dessen Along for the Ride by: Sarah Dessen

Would you recommend this book?:

Yes, to any girl who's wanted a summer full of excitement.
